Resource Estimation Report Authors

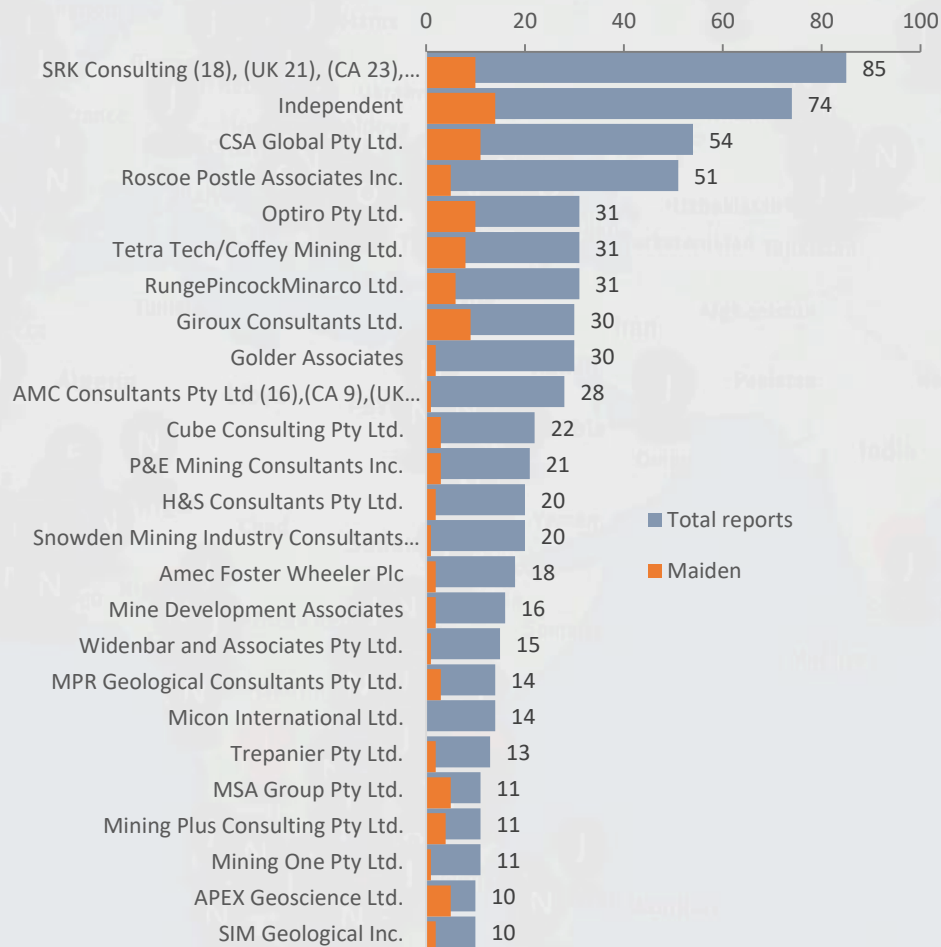

This week

Note: Some reports can contain multiple resource QP's and consulting companies so numbers may not add up to total.

We have recently adjusted our methodology for producing the above graphs. We now only count a resource author where the resource status is maiden/updated/upgraded. Previously we counted a resource author even if the resource status itself was unchanged.

Overall since Oct 2014

Note: Projects are only listed once in this table to avoid the same project being ranked multiple times.

Note that the intersections reported here are extracted directly from the public reports. No additional verification of true widths or handling of outliers has been carried out. This listing is based on the assumption that all public reports are presenting information in a transparent and balanced way. If you know that any of the results presented here do not show a transparent and balanced representation of the mineralisation, then please contact us.

SolGold takes out the top spot this week with another great Cu-Au intercept from Cascabel in Ecuador. Wallbridge Mining takes out the #2 spot with a great gold hit from Fenelon in Canada and Barkerville Gold Mines is in third place also with a good gold hit from their Cariboo project in Canada.
