Resource Estimation Report Authors

This week

Note: Some reports can contain multiple resource QP's and consulting companies so numbers may not add up to total.

The above graphs refer only to the consulting company that produced the mineral resource estimate. Currently other consultancies involved (e.g. Overall report, Reserve, Metallurgy etc) are not included in the above statistics. We are currently working to include all.

Overall since Oct 2014

Note: Projects are only listed once in this table to avoid the same project being ranked multiple times.

Note that the intersections reported here are extracted directly from the public reports. No additional verification on true widths has been carried out. No verification on the handling of outliers has been carried out. This listing is based on the assumption that all public reports are presenting information in a transparent and balanced way. If you know that any of the results presented here do not show a transparent and balanced representation of the mineralisation, then please contact us.

Nevsun Resources is in first place this week with a thick Cu-Au hit from Timok in Serbia. Coming in second is Aurelia Metals with a high grade Au-Ag-Pb-Zn intercept from Hera in Australia. Lion One Metals is in third place with an impressive gold hit from Tuvatu in Fiji.
